

**Fallas Automation Environmental Policy:**

Fallas Automation is committed to environmental leadership in all of its business activities. Fallas Automation provides policies to create a safe, healthful workplace, protecting the environment, conserving energy and natural resources. With these policies in place we believe that we can achieve a healthy and safe environment. We are committed to do and will:

- Provide a safe and healthful workplace and ensure that personnel are properly trained with the appropriate safety and emergency equipment.
- Be an environmentally responsible neighbor in the community where we operate, and correct incidents or conditions that endanger health, safety, or the environment.
- Conserve natural resources by adopting pollution prevention practices. Ex: extending the life of equipment through preventive maintenance scheduling, purchasing and reducing power requirements to operate our machinery through the usage of energy efficient motors and electronic components and reducing cfm required to operate the machinery we provide.
- Develop and improve operations and technologies to minimize waste, and other pollution, minimize health and safety risks, and dispose of waste safely and responsibly.
- Ensure the responsible use of energy throughout our business, including conserving energy improving energy efficiency, and giving preference to renewable over non-renewable energy when feasible.
- Participate in efforts to improve environmental protection and understanding.
- Meet and exceed all applicable Federal and State requirements set and adhere to stringent requirements no matter where we do business.
- Strive to continually improve Fallas Automation environmental management system and performance.
- Promptly report all noncompliance issues in accordance with applicable governmental reporting requirements, evaluate causes of noncompliance, and implement corrective actions.
- Promptly correct any practice or condition not in compliance with this policy.
